2004 NC8 PedNSS Table 1C
Age distribution among children aged 5 to <20 years

Percentage

5-<12 Years

12-<20 Years

2004 NC8 PedNSS Table 1C
Prevalence of short stature, underweight, and overweight* among children aged 5 to <20 years

* Short stature: < 5th percentile height-for-age; underweight: < 5th percentile BMI-for-age; overweight: ≥ 95th percentile BMI-for-age. CDC Growth Charts, 2000.

2004 NC8 PedNSS Table 2C
Prevalence of short stature* among children aged 5 to <20 years, by race and ethnicity

* < 5th percentile height-for-age, CDC Growth Charts, 2000.
5% of children are expected to fall below the 5th percentile.

2004 NC8 PedNSS Table 8C
Prevalence of short stature*
among children aged 5 to <20 years, by age

* < 5th percentile height-for-age, CDC Growth Charts, 2000. 5% of children are expected to fall below the 5th percentile.
Trends in prevalence of short stature* among children aged 5 to <20 years, by race and ethnicity

* < 5th percentile height-for-age, CDC Growth Charts, 2000. 5% of children are expected to fall below the 5th percentile.
Prevalence of underweight* among children aged 5 to <20 years, by race and ethnicity

* 5th percentile BMI-for-age, CDC Growth Charts, 2000.
5% of children are expected to fall below the 5th percentile.
Prevalence of underweight* among children aged 5 to <20 years, by age

* < 5th percentile BMI-for-age, CDC Growth Charts, 2000. 5% of children are expected to fall below the 5th percentile.
Trends in prevalence of underweight* among children aged 5 to <20 years, by race and ethnicity

* < 5th percentile BMI-for-age, CDC Growth Charts, 2000. 5% of children are expected to fall below the 5th percentile.
Prevalence of overweight* among children aged 5 to <20 years, by race and ethnicity

* > 95th percentile BMI-for-age, CDC Growth Charts, 2000.

** Year 2010 target: reduce the proportion of children and adolescents aged 6 to 19 years who are overweight to 5%.
Prevalence of overweight and risk of overweight* among children aged 5 to <20 years, by race and ethnicity

* Overweight: \( \geq 95\text{th percentile BMI-for-age} \); at risk of overweight: \( 85\text{th}<95\text{th percentile BMI-for-age} \), CDC Growth Charts, 2000. 15% of children are expected to fall above the 85th percentile (5% above the 95th percentile and 10% between the 85th and 95th percentiles). Year 2010 target: reduce the proportion of children and adolescents aged 6 to 19 years who are overweight (\( \geq 95\text{th percentile} \)) to 5%.

2004 NC8 PedNSS Table 8C
Prevalence of overweight* among children aged 5 to <20 years, by age

*  > 95th percentile BMI-for-age, CDC Growth Charts, 2000.
** Year 2010 target: reduce the proportion of children and adolescents aged 6 to 19 years who are overweight to 5%.
Prevalence of overweight and risk of overweight*
among children aged 5 to <20 years, by age

* Overweight: > 95th percentile BMI-for-age; at risk of overweight: > 85th-<95th percentile BMI-for-age, CDC Growth Charts, 2000. 15% of children are expected to fall above the 85th percentile (5% above the 95th percentile and 10% between the 85th and 95th percentiles). Year 2010 target: reduce the proportion of children and adolescents aged 6 to 19 years who are overweight (> 95th percentile) to 5%.
Trends in prevalence of overweight* among children aged 5 to <20 years, by race and ethnicity

* > 95th percentile BMI-for-age, CDC Growth Charts, 2000.
Year 2010 target: reduce the proportion of children and adolescents aged 6 to 19 years who are overweight to 5%.
Trends in prevalence of overweight* among children aged 5 to <20 years, by age

* > 95th percentile BMI-for-age, CDC Growth Charts, 2000.

Year 2010 target: reduce the proportion of children and adolescents aged 6 to 19 years who are overweight to 5%.

2004 NC8 PedNSS Table 20C
Prevalence of anemia* among children aged 5 to <20 years, by race and ethnicity

* Hb or Hct < 5th percentile, CDC MMWR vol. 47 (No. RR-3), 1998.

2004 NC8 PedNSS Table 8C
Prevalence of anemia* among children aged 5 to <20 years, by age

* Hb or Hct < 5th percentile, CDC MMWR vol. 47 (No. RR-3), 1998.

2004 NC8 PedNSS Table 8C
Trends in prevalence of anemia* among children aged 5 to <20 years, by race and ethnicity

* Hb or Hct < 5th percentile, CDC MMWR vol. 47 (No. RR-3), 1998.
Trends in prevalence of anemia* among children aged 5 to <12 years, by age

* Hb or Hct < 5th percentile, CDC MMWR vol. 47 (No. RR-3), 1998.

2004 NC8 PedNSS Table 21C
Trends in prevalence of anemia* among children aged 12 to <20 years, by age

* Hb or Hct < 5th percentile, CDC MMWR vol. 47 (No. RR-3), 1998.
