

WIC History (Screen 25)

WIC History (screen 25) lists all of the saved actions taken on the participant's WIC Certification Record (screen 20) sorted according to date. More detail on a particular record is displayed on a second page of screen 25. The detailed history page includes all data from the current WIC Certification record (screen 20) in a format that enables everything from the two screen 20 pages to be seen on one page.

To view the first screen of WIC History (HSA250A), enter the following on the fastpath line of the Application Selection Menu:

- Screen = 25
- ID = the participant's 9-digit Patient Master ID number, or the 2-digit WIC program number and the participant's 6-digit WIC ID number with 9th position blank
 - ▶ The ID will not be visible on this field but the system will recognize what is entered.
- Date = Blank (to view all action records in the WIC History); if a particular date is entered, the system will show all history from that date forward
- Action code = I for Inquiry
- Press the **ENTER** key.
- When multiple pages of data are displayed, press the <F3> key to return to the first screen of data.
