How to use your WIC food instruments and cash-value vouchers

Only the participant/parent/guardian/caretaker or proxy can use food instruments or cash-value vouchers at the store.

- Use only at a North Carolina authorized WIC store.
- Use on or between the “first date to spend” and “last date to spend” printed on the food instrument or cash-value voucher.
- Do not make changes on the food instrument or cash-value voucher.
- Use this Shopping Guide to help you select the foods listed on the food instrument or cash-value voucher.
- If the store does not have all the foods that you need, go to another authorized WIC store. Do not accept rain checks or IOUs.
- Separate WIC foods by food instrument from your other groceries. The cashier will need to ring up the food from each food instrument separately.
- If your family has more than one cash-value voucher for the month, you can use them together.
- Use valued-client cards, in-store specials and coupons for WIC foods when possible.
- Sign each food instrument or cash-value voucher after the cashier has filled in the correct date and total price of the WIC foods.
- Never get change from the WIC food instrument or cash-value voucher.
- If your fruits and vegetables cost more than the cash-value voucher amount, you will need to pay the difference.
- Do not return WIC foods to the store for cash, credit or exchange for other foods.
- Contact your local WIC office if you have questions or problems.
Cómo usar los instrumentos para adquirir alimentos y los vales con valor en efectivo del programa WIC.

Solo el participante/el padre o la madre/el tutor(a)/la persona a cargo del cuidado del niño o el apoderado del niño pueden utilizar los instrumentos para adquirir alimentos y sus vales con valor en efectivo en la tienda.

- Utilícéllos únicamente en tiendas autorizadas por WIC en Carolina del Norte.
- Utilícéllos entre "el primer día de la fecha para gastarlos" y "el último día de la fecha para gastarlos" impresa en el instrumento para adquirir alimentos y en el vale con valor en efectivo.
- No haga ningún cambio en el instrumento para adquirir alimentos ni en el vale con valor en efectivo.
- Utilice la Guía de Compras como ayuda para escoger los alimentos listados en el instrumento para adquirir alimentos o en el vale con valor en efectivo.
- Si la tienda no tiene todos los alimentos que necesita, vaya a otra tienda que esté autorizada por WIC. No acepte cupones de canjeo por productos que se los darán después o pagarés.
- Separe del resto de sus compras los alimentos de WIC de acuerdo al instrumento para adquirir alimentos. El cajero tiene que registrar el alimento de acuerdo a cada instrumento para adquirir alimentos de manera separada.
- Si su familia tiene más de un vale con valor en efectivo para el mes, puede usarlos juntos.
- Cuando sea posible, utilice tarjetas para clientes apreciados, las ofertas especiales y los cupones de descuento de las tiendas para comprar alimentos WIC.
- Firme cada instrumento para adquirir alimentos o vale con valor en efectivo después de que el cajero haya anotado la fecha correcta y el precio total de los alimentos WIC.
- Nunca reciba cambio de dinero en efectivo por el instrumento para adquirir alimentos o por el vale con valor en efectivo de WIC.
- Si el precio de las frutas y verduras es mayor que la cantidad del vale con valor en efectivo, usted tendrá que pagar la diferencia.
- No devuelva los alimentos WIC a la tienda a cambio de dinero en efectivo, de crédito, o por intercambio de otros alimentos.
- Comuníquese con la oficina local de WIC si tiene alguna pregunta o algún problema.

Formulas or WIC-eligible Nutritionals / Fórmulas o Productos Nutricionales que Cumplen con el Programa WIC

How to prepare powdered formula

- Decide on the amount of formula needed per feeding (2, 4, 6, or 8 oz.). Pour that amount of water into an infant bottle.
- Use the scoop that comes in the can when you measure the powder.
- Fill the scoop, but don’t pack it or heap it. Too much powder can make your baby sick.
- Add one flat scoop of powder for every 2 oz. of water. Shake well to mix.

Cómo preparar la fórmula en polvo

- Decida qué cantidad de fórmula necesita en cada comida (2, 4, 6 u 8 oz.). Vierta dicha cantidad de agua en el biberón.
- Utilice el cucharón de medida que viene dentro de la lata para sacar la cantidad de fórmula en polvo adecuada.
- Llene el cucharón, pero no lo comprima ni lo sobrellene. Demasiado polvo puede enfermar al bebé.
- Agregue un cucharón de polvo por cada 2 oz. de agua. Agite bien para mezclar.

Warning!
Do not add extra water when preparing infant’s formula.

¡Advertencia!
No agregue más agua de la indicada al preparar la fórmula infantil.
The amount of infant food you get each month depends on how you feed your baby. If you pick up your food instruments late, you may get less food. Look on your food instruments to see how many ounces you may choose. You can mix and match sizes to get the amount listed. Ask a WIC staff member for Shopping for Infant Foods with WIC Food Instruments.
