Additionally, in accordance with G.S. 130A-93 (e), medical information obtained from birth certificates can only be released upon approval of the State Registrar.

As part of the SCHS, Crossroads is a collection point for data from many public health agencies. Because this data contains personal identifiers that must remain secure and confidential:

- I understand that my user access will be deactivated for inactivity over 90 days.

Failure to comply with these policies will result in User privileges being revoked. That failure may be subject to disciplinary action under laws of the State of North Carolina.
