Chapter 1
Introduction to WIC

Table of Contents

This chapter introduces the WIC Program and information on the required local agency policies, staff conflict of interest, management of program policies and procedures, and resources available from the Nutrition Services Branch to support program activities.

Section 1. Overview of WIC .....................................................................................................1
   ▪ Introduction

**Required Local Agency Written Policies and Procedures**

- Local Agencies must have a written policy consistent with the Breastfeeding-Friendly Workplace Policy. (Section 5, page 11)

- Local Agencies must have a written disaster policy consistent with local and State operations. (Section 6, page 15)
Overview of WIC

The Special Supplemental Nutrition Program for Women, Infants, and Children, commonly known as WIC, is a federal program administered by the United States Department of Agriculture (USDA). The WIC Program is designed to provide supplemental foods, health care referrals, and nutrition education to low-income pregnant, breastfeeding, and non-breastfeeding postpartum women, and to infants and children up to age five who are found to be at nutritional risk. Additional information on WIC can be found at http://www.fns.usda.gov/wic/.

Introduction

The purpose of the WIC Program is spelled out in Section 17 (a) of Public Law 95-627 (Child Nutrition Amendments of 1978).

The Congress finds that substantial numbers of pregnant women, infants, and young children are at special risk in respect to their physical and mental health by reason of poor or inadequate nutrition or health care, or both. It is, therefore, the purpose of the program authorized by this section to provide supplemental nutritious foods and nutrition education as an adjunct to good health care during critical times of growth and development in order to prevent the occurrence of health problems and improve the health status of these persons.

To fulfill the legislated purpose of the Program in North Carolina, the following must be present at the level of implementation:

- Integration of WIC with established health services
- WIC food packages that are tailored as a prescription for individual participants
- Tailored nutrition education services for participants

WIC Program Benefits

- **WIC Food Prescription.** The foods available through WIC are foods containing nutrients determined to be beneficial for pregnant, breastfeeding, and postpartum women, infants and children. Refer to Chapter 7 for information on the specific types and quantities of supplemental foods as part of the WIC food prescription WIC Program participants.

- **Nutrition Education.** Nutrition and physical activity education is an integral part of the WIC Program and is designed to improve health status, achieve positive change in dietary habits, and emphasize relationships between nutrition and health, all in keeping with the individual's socioeconomic situation as well as personal and cultural preferences. Refer to Chapter 5 for information on the nutrition education benefit of the WIC Program.

- **Breastfeeding Promotion and Support.** Pregnant and postpartum women who participate in WIC receive comprehensive breastfeeding education and support. Refer to Chapter 9 for information on the breastfeeding associated benefit of the WIC Program.

- **Referrals to Health Care and Public Assistance Programs.** WIC Program applicants and participants receive referrals and information about other relevant health care services (e.g., immunization services, prenatal care, well child health care), appropriate
public assistance programs (e.g., Food and Nutrition Services, Medicaid), and potential sources for food assistance.

### Eligibility For WIC

To qualify for the North Carolina WIC Program, an applicant must meet four eligibility criteria. Refer to Chapter 6 for additional information about each of these criteria.

- **Categorical eligibility.** A participant must be a pregnant woman, a non-breastfeeding postpartum woman up to six months after the birth of the infant or the end of the pregnancy, a breastfeeding woman up to one year postpartum, an infant up to the first birthday, or a child up to the fifth birthday.

- **Residential eligibility.** A participant must live in the State of North Carolina and in the health services delivery area of the local agency.

- **Income eligibility.** A participant must have a gross annual income at or below 185% of the federal poverty line. All Medicaid, TANF (Work First), and Food and Nutrition Services recipients are automatically income-eligible for WIC (i.e., adjunctively eligible).

- **Nutrition risk eligibility.** A participant must have at least one identified nutrition risk as related to medical or dietary-based conditions and as assessed by a competent professional authority (CPA). Nutrition risks include but are not limited to: anemia, poor growth, previous poor pregnancy outcome, inadequate diet, and other nutrition-related problems.

### Participation In WIC

Over 222,000 North Carolina women, infants, and children receive WIC Program services each month. Monthly participation in WIC is defined as the sum of:

- the number of pregnant women, breastfeeding women, postpartum women, infants and children who received food benefits or cash-value benefits during the reporting period;

- the number of breastfeeding infants who did not receive food benefits, but whose breastfeeding mother received food benefits or cash-value benefits during the reporting period; and

- the number of breastfeeding women six months or more postpartum who did not receive food benefits or cash-value benefits, but whose breastfed infant(s) received food benefits during the reporting period.

Refer to Chapter 7 for more information on the food benefits of WIC and to Chapter 8 for information on the issuance of food benefits.

### Impact Of WIC On Health Status

Over the years, USDA has conducted extensive evaluations of the WIC Program as have a
variety of other groups, including the federal General Accounting Office (GAO). WIC provides quality, cost-effective care to thousands of families across North Carolina. Evidence demonstrates that women who participate in WIC have improved pregnancy outcomes, resulting in healthier babies. There are numerous benefits to women, infants and children who participate in WIC. Studies show that:

- **WIC reduces infant mortality.** WIC connects pregnant women to prenatal care, provides nutritious foods and encourages health-promoting behaviors. These factors are linked to positive birth outcomes (USDA, 2012).
- **WIC saves public health care dollars.** Women who participate in WIC are less likely to have pre-term or low-birth weight babies, contributing to healthier babies and reduced medical costs (Institute of Medicine, 2006).
- **WIC improves children’s health.** Children who participate in WIC are more likely to receive regular preventive health services and are better immunized than other low-income children who do not participate in WIC (USDA, 2012).
- **WIC improves infant feeding practices and diet quality.** WIC promotes and supports breastfeeding as the optimal infant feeding choice. In addition, revisions to the WIC Food Package have resulted in increased intake of fruits, vegetables, whole grains and low-fat dairy among WIC participants (USDA, 2012; Center on Budget and Policy Priorities, 2015).
- **WIC supports cognitive development.** Research shows that WIC services can mitigate the harmful effects of poor nutrition during critical periods of growth and development, leading to lifelong cognitive gains (USDA, 2012).

### WIC In North Carolina

WIC is administered at the State level by the NC Department of Health and Human Services, Division of Public Health, Women’s and Children’s Health Section, Nutrition Services Branch. Locally, the WIC Program is administered by public health agencies (e.g., county health departments and community and rural health centers) serving all 100 counties. Additional information about the North Carolina WIC Program can be found at [www.nutritionnc.com](http://www.nutritionnc.com).

In addition to the WIC Program federal regulations ([http://www.fns.usda.gov/wic/wic-laws-and-regulations](http://www.fns.usda.gov/wic/wic-laws-and-regulations)) program activities are governed by rules outlined in the **North Carolina Administrative Code (NCAC), Title 10A Health and Human Services, Chapter 43, Subchapter D.** The NCAC can be accessed online at [http://www.oah.state.nc.us/rules/](http://www.oah.state.nc.us/rules/) At this website, select **NC Administrative Code** to access the NCAC Table of Contents. Once at the NCAC Table of Contents, complete the fields at the top of the web page as noted below and click “Look Up”
Program Policies and Procedures

The North Carolina policies and procedures are described in writing in the WIC Program Manual. All staff working with the WIC Program must have ready access to the WIC Program manual.

- **Distribution Of The WIC Program Manual**
  Each Local WIC Program receives at least one paper copy of the WIC Program Manual and may request additional copies. The complete NC WIC Program Manual is also available on the website: www.nutritionnc.com. The Local WIC Director is responsible for:
  - making staff aware of the manual's contents;
  - assuring that all copies of the WIC Program Manual in the local agency are updated when manual revisions are received; and
  - providing staff with ready access to a program manual.

- **Updating Program Policy**
  The Nutrition Services Branch periodically issues a numbered memorandum to reflect changes in federal and state regulations, rules, and/or policies and procedures.

  Numbered memos contain policy changes which may be short-term solutions to temporary challenges or permanent policy changes such as a WIC Program Manual revision. Staff should maintain a log of numbered policy memos and file the policy memos, so they can be easily retrieved. A sample numbered memos log is found in Attachment 1.

  Manual revisions contain changes/clarifications which become part of the North Carolina WIC Program Manual. When staff receives a manual revision, they should follow the guidance in the correspondence for inserting the revision into the manual as well as for reviewing, distributing, and implementing changes in policies and procedures.

- **Local Agency Policies And Procedures**
  Local Agencies must develop several written policies and procedures specific to the agency. Sections within the WIC Program which require a local agency written policy and procedure to be kept on file are listed in the “Table of Contents” of each chapter within the NC WIC Program Manual.

  Staff is encouraged to develop the written policies and procedures using a format consistent with that used by other programs within the agency, to have the written policies and procedures signed and dated by the WIC Director (and any other staff per agency protocol), and to review policies and procedures at least every two years and update as needed.
No Smoking Policy in Local Agency Facilities

To receive WIC administrative funds, local agencies and WIC clinics must have an announced public policy that prohibits smoking. This policy applies to any space where staff conducts WIC activities including accepting WIC applications, certifying participants, and issuing food benefits.

This prohibition against smoking applies only to those times when the WIC Program is operating. Satellite operations, that offer WIC services once or twice a week, are not required to announce and implement the non-smoking policy when the WIC Program is not operating.
Staff Conflict of Interest

To preserve the integrity of the certification and food benefit issuance processes, and to minimize the potential for staff fraud and program abuse, federal regulations require the implementation of policies and procedures that prevent conflict of interest or the appearance of conflict of interest by local agency staff. Refer to Chapter 8 for information on providing food benefits issuance.

- **Certifying And Issuing Food Benefits To Self, Relatives Or Close Friends.** To prevent the appearance of conflict of interest, local agency staff must not participate in any component of the certification process or food benefits issuance to herself/himself, relatives, or close friends.

  - *Relatives* include: spouse, parents, children, grandchildren, grandparents, brothers, sisters, aunts, uncles, nieces, nephews, first cousins, stepparents, stepchildren, stepbrothers, and stepsisters by blood or marriage.

  - *Close friends* cannot be defined in a way that fits every situation; therefore, local agencies have authority to determine if a WIC applicant or participant is a close friend of a local agency WIC staff.

WIC staff who is scheduled or who has a relative or close friend scheduled for a certification or an appointment that includes food instrument issuance shall notify the WIC Director or clinic supervisor, so that arrangements can be made for other staff persons to certify and issue food instruments.

- **Certifying And Issuing Food Benefits By The Same Staff Person**

  - *Separation of duties.* There must be a separation of duties among local agency staff so that the same person does not complete both income eligibility determination and medical or nutritional risk eligibility determination for the same participant. It is acceptable however, for one staff member to conduct part of the certification (i.e., determine nutrition eligibility) if a different staff member determines income eligibility; either staff member may issue food benefits in this situation.

  - *When separation of duties is not possible due to limited staff.* Each local agency must have a written policy that describes how the local agency ensures separation of duties that addresses strategies implemented when separation of duties is not possible due to limited staff. The local agency policy must make it clear that the guidelines below are followed:
    - Staff completing the certification when separation of duties is not achieved must complete the first five columns of the Separation of Duties Log (Attachment 2).
    - The local agency will designate staff other than the certifier (e.g., local agency WIC Director, Health Director, or designee) to review selected certification records (see below) for which separation of duties was not achieved.
• Using the last five columns on the Separation of Duties Log, designated staff will conduct a review of all non-breastfeeding infant certification records and at least 20 percent of the remaining certification records for which separation of duties was not achieved. This review must occur within 14 calendar days of the certification.

• The completed Separation of Duties Log must be filed at the local agency in a secure and retrievable manner and shall be made available for review during state agency monitoring events and local agency self-assessments.

• The Separation of Duties Log must be retained in consecutive order by date.

• The local agency WIC Director or designee must contact the agency’s Regional Nutrition Consultant immediately if the local agency review of the Separation of Duties Log suggests irregularities in WIC certification activity.

WIC Staff And WIC Vendors. To ensure there is no appearance of conflict of interest regarding the relationship of local agency staff and WIC Vendors, the policies below must be followed.

• Local agency staff whose salary is paid in whole or any part by WIC Program funds are prohibited from having financial ownership in any authorized WIC Vendor.

• Local agency staff whose salary is paid in whole or any part by WIC Program funds shall not be employed by and handle or transact WIC food benefits or cash-value benefits for a WIC vendor in the same county served by the local WIC Program. Likewise, local agency WIC staff must not have a spouse, child, or parent who is employed by and handles or transacts WIC food benefits or cash-value benefits for a WIC vendor in the same county served by the local WIC Program.
Breastfeeding Friendly Workplace Policy

Support Breastfeeding-Friendly Workplace Policy

The local agency must have written breastfeeding/lactation policy for WIC staff. The policy at a minimum must:

- Provide a reasonable amount of break time for employees to express breastmilk or breastfeed throughout the work day.

- Provide a private and functional space for expressing their breastmilk. The space should be free from intrusion from co-workers or the public, such as a lock on the door. The space must have access to an electrical outlet for powering an electric breast pump. This space may not be a bathroom.
Disaster Policy and Procedures

The WIC Program is a supplemental food and nutrition program that serves specific categorically eligible persons with special nutritional needs; it is not designed to meet the basic nutritional needs of disaster victims who would not otherwise be eligible for the program.

A disaster situation for purposes of this section is an event that threatens to or has already interrupted the provision of WIC services and caused the relocation of WIC participants. Examples of these types of events include floods, wildfires, and hurricanes. WIC’s role in responding to disasters is minimal; however, there are ways the Program can contribute to relief efforts. As the disaster coordinator, the Nutrition Services Branch Head or designee plans, coordinates, and activates the NC WIC Program disaster response.

Eligibility Criteria For Evacuees And Others Impacted By Disasters

New applicants/participants who are victims of a disaster may be considered special at nutritional risk and, as such, must receive expedited certification processing ahead of others receiving WIC benefits.

- The LA must make every effort to certify these individuals immediately or within 10 days of their request for WIC benefits.
- If a disaster victim moves in with another household, the displaced individual(s) will be considered homeless and treated as a separate economic unit.
- A disaster victim may not have access to proofs of identity, residence, or income and requirement of documentation for determination of eligibility would present an unreasonable barrier to participation. As such, it is appropriate to utilize a signed affidavit for proof of identity, residency, and/or income (with self-declared income) for WIC Program certification.
- Each disaster victim must be provided Verification of Certification (VOC) information to assure continuation of benefits should the individual relocate to another state. For further guidance on the provision of a VOC, see Chapter 6E, Section 1: Transfer of Certification.
- Disaster victims are at nutritional risk since they are considered homeless.
  - Blood test for anemia may be deferred for up to 90 days.
  - Measurements for height or length and weight must be taken onsite at the initial visit.
  - Pregnant women who are income eligible, may be considered presumptively eligible to participate in the program, and may be certified immediately without an evaluation of nutritional risk for up to 60 days.

Flexibility In Operations

WIC Program regulations provide flexibility with physical presence, certification periods and issuing eWIC benefits. Approved flexibilities should be exercised to the fullest extent allowed and reasonable to meet the needs of individuals affected by the disaster and minimize disruption to services.
For the Affected Individual
- Persons with a serious illness that may be exacerbated by coming in to the WIC clinic may be exempt from the physical presence requirement.
- Local agencies may extend the certification period for infants and children up to 30 days to accommodate difficulty in scheduling appointments.
- Local agencies may issue electronic food benefits to participants when not physically present if allowed by policy as indicated in Chapter 8, Section 3 “Issuance when Cardholder is Not Physically Present”.

For the Local Agency
- Address possible operation of alternative certification and benefit issuance sites.
- Notify participants of any variance in normal program operations.

### Food Benefits
- The full maximum monthly allowance of all prescribed supplemental foods, in all food packages, must be made available to participants if medically or nutritionally warranted.
  - If an evacuated participant is unable to provide medical documentation for WIC-eligible infant formula/nutritional and Local Agency staff are unable to externally verify a medical condition that indicates need, one-month issuance of the WIC-eligible infant formula/nutritional may be issued following assessment.
- Adjustments should be made to food prescriptions to accommodate participants that are homeless or lack food storage or preparation areas.
- Redeemed food benefits for the current benefit period that were destroyed in the disaster may be eligible to be replaced.
  - Only the food benefits damaged or destroyed as a result of a disaster may be replaced.
  - Replacement does not result in the replacement of prior month benefits.
  - Quantity of replacement food benefits reflects the portion of food benefits for which the participant would still be eligible.
  - Participant/parent/guardian/caretaker signs the ‘Affidavit Attesting to WIC Food Benefit Loss’ (Attachment 3).
    - North Carolina WIC requires participants to sign a statement attesting that their food benefits have been damaged or destroyed as a result of a disaster.
- The LA notifies the NSB Customer Service Desk to assist with replacement.
- Vendors will not have the option to accept out-of-state WIC benefits.

### Supporting Breastfeeding
WIC encourages breastfeeding as the standard method of infant feeding. During a disaster, some things that WIC can do to help support breastfeeding mothers include:

- Meet with the local emergency preparedness team to convey the importance of continued breastfeeding during emergencies and contribute to a plan that supports breastfeeding mothers and infants during disasters.
- Raise awareness among new mothers of the benefits of continued breastfeeding.
- Promote breastfeeding as the safest food in an emergency.
- Replace destroyed breast pumps or breastfeeding supplies:
• Every effort should be made to replace the destroyed items as quickly as possible.
• Document both the loss and the replacement of the breast pump in the mother’s record in Crossroads. If Crossroads is not available, document on the ‘Continuity of Services Form’ (Attachment 4) and enter into the participant’s care plan in Crossroads when available.
• The staff member who issues the breastfeeding supply must also sign the ‘Breastfeeding Supplies Release of Liability and Loan Agreement’.
• If a breastfeeding woman has transferred from another agency and is seeking assistance, staff should assess the need for a breast pump and/or supply and issue in accordance with the NC WIC Program policy. While the WIC Program Manual (Chapter 9, Section 4) prohibits replacement of a single user electric breast pump, this policy is temporarily waived to allow replacement of a pump that was destroyed due to a disaster.

■ Local Agency Disaster Policy
Advanced planning for disaster situations promotes a more organized and constructive relief response. Local agencies are required to develop and maintain a written disaster policy consistent with local and State operations. The policy should contain, at a minimum, the following components:

• Steps the agency will take to minimize potential impacts to the WIC clinic and services when a disaster situation is predicted,
• Plan for communicating with participants and the public when a disaster has occurred and impacted local operations,
• Plan for contacting the Nutrition Services Branch if services are impacted by a disaster,
• Designation of a disaster contact,
• Alternate procedures including a plan for providing services when computer systems are down, alternate locations for services, and use of mobile equipment to provide services (Attachment 5),
• Include the consideration for extending the certification period for infants and children up to 30 days to accommodate difficulty in scheduling appointments
• Plan to determine impacts to WIC vendors and appropriate response.

Note: Parts Taken from California WIC Policy and Procedure Manual
Program Materials Available From The Nutrition Services Branch

The Nutrition Services Branch (NSB) stocks a wide variety of materials used by Local Agency staff for WIC Program activities including breastfeeding education and support, program outreach, nutrition education, and vendor management.

A complete list of available materials can be found on the Nutrition Services Branch Requisition Form (DHHS 2507). The requisition form can be downloaded from the NSB website [www.nutritionnc.com](http://www.nutritionnc.com) under local agency resources.

**Ordering Materials**

To order materials from the NSB, local agencies should use the NSB Requisition Form (DHHS 2507). Staff should complete the form and mail or fax it to: Nutrition Services Branch, 1914 Mail Service Center, Raleigh, NC 27699-1914; 5601 Six Forks Rd., Raleigh, NC, 27609; fax: 919-870-4818.

When ordering materials, local agencies are requested to:

- coordinate orders with other staff in the agency who use NSB materials;
- submit no more than one order a month to help with NSB efficiency in serving all agencies submitting orders; and
- do not order more than a 3-month supply

**Receiving Materials**

The Nutrition Services Branch will fill an order in its entirety and ship requested materials within two to three (2-3) weeks of receiving a requisition form with the following exceptions.

- **Materials in Limited Supply.** When an item(s) is in limited supply, the NSB will ship only a portion of the quantity ordered. Your agency will receive notification that NSB has a low stock of that item, and the difference will be shipped when the stock of that item(s) is replenished.

- **Materials on Back-Order.** When an item(s) is temporarily out-of-stock, the NSB will provide notification to the agency that the item is on back-order. The item does not need to be re-ordered; the NSB will keep the agency’s requisition on file and fill as per the original request when the item is re-stocked.

Chapter 1: INTRODUCTION TO WIC

Attachment 2

Instructions for Completing Separation of Duties Log

For the certifier:

1. When separation of duties is not possible, complete the first five columns (1 through 5) on the date that the certification occurs.
2. Enter the date of certification, Crossroads participant ID number, and participant category.
3. Answer the question regarding whether the participant is a non-breastfeeding infant (The policy memorandum does not define non-breastfed infant. For the post record review requirement, all food packages containing infant formula must be reviewed).
4. Sign in the staff name column.

For the reviewer:

1. Within 14 days of the certification date, the designated reviewer will conduct a post review of all non-breastfeeding infants’ certification records and at least 20 percent of the remaining certification records by completing the remaining five columns (6 through 10).
2. Log into Crossroads and navigate to Income Information under Certification quick links. Expand Income History and review Selected Row Details for the date of the certification being reviewed. Determine if income eligibility was determined appropriately by checking for verification details of adjunctive eligibility; identifying the source, proof, frequency, amount, and duration if not adjunctively eligible; viewing the scanned affidavit if no proof of income exists; or viewing the reason for zero income if zero income was documented. Assess for unexpected or irregular patterns among the certification records reviewed, such as frequent use of zero income or frequent round or repeated numbers in income amounts. Indicate yes or no based on whether income appears to be determined appropriately. (See the WIC Program Manual, Chapter 6B and Attachment 1 for more information.)
3. Navigate to the Care Plan Summary under Care Plan quick links. Expand the care plan for the participant’s record being reviewed. View the assigned risk codes for the certification being reviewed and determine if they are valid. Document findings on the log.
4. Navigate to the Care Plan Detail under Care Plan quick links. Expand the care plan for the participant’s record being reviewed and determine if the correct food package was prescribed by examining the current food prescription. Determine if the prescription consistent with participant category and documentation in the nutrition assessment. Document findings on the log.
5. Sign in the reviewer name column, and enter the date the record was reviewed in the date column.
6. If the reviewer answered no to any questions, notify the agency’s Regional Nutrition Consultant immediately or no later than within one business day of identification.

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, sex, disability, age, or reprisal or retaliation for prior civil rights activity in any program or activity conducted or funded by USDA. Persons with disabilities who require alternative means of communication for program information (e.g. Braille, large print, audiotape, American Sign Language, etc.), should contact the Agency (State or local) where they applied for benefits. Individuals who are deaf, hard of hearing or have speech disabilities may contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program complaint of discrimination, complete the USDA Program Discrimination Complaint Form, (AD-3027) found online at: http://www.ascr.usda.gov/complaint_filing_cust.html, and at any USDA office, or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by:

1) mail: U.S. Department of Agriculture Office of the Assistant Secretary for Civil Rights 1400 Independence Avenue, SW Washington, D.C. 20250-9410;
2) fax: (202) 690-7442; or
3) email: program.intake@usda.gov

This institution is an equal opportunity provider.

**AFFIDAVIT FOR PROOF OF IDENTITY, RESIDENCY, and / or INCOME**

The following is to be completed for certifications when proof of identity, residency, and/or income does not exist, obtaining proof places undue burden to or harm on applicant, or an individual declares that their economic unit has no income.

I understand that by completing, signing and dating this form, I am certifying that the information I am providing is correct. I understand that intentional misrepresentation may result in paying the state agency, in cash, the value of the food benefits improperly received.

Entiendo que al completar, firmar y fechar en esta forma, certifico que la información que proveo es correcta. Entiendo que proveer información incorrecta intencionalmente puede resultar en tener que devolver a la agencia estatal, en efectivo, el valor de los beneficios de comida recibidos indebidamente.

NC DHHS Revised 5/19 NSB #3305
NC WIC Program: Business Continuity Plan

In the event that the Local WIC agency is unable to access the Crossroads system and the duration of interruption is uncertain, the Business Continuity Plan should be put into effect to continue serving WIC participants as able.

In the event of a statewide outage, business operations will cease until such a time that Crossroads is restored.

Prerequisites
It is critical to plan ahead and have on-hand the following resources from the NSB website (www.nutritionnc.com) or ordered from the NSB:
1. ‘Continuity of Services Form’ (DHHS 3302, 3303, 3304, 3305)
2. ‘NC WIC Program Guidance: Disaster Situations’
3. Growth charts and prenatal weight gain charts
4. Required Notifications Template

Crossroads NOT available, phone and fax service available
- Check with local IT support to determine if the interruption is a local problem
- Notify the NSB Customer Service Desk (CSD)
- NSB CSD staff can provide the following to the Local WIC Agency via fax:
  - Detail Clinic Daily Appointment Schedule
  - Participant Summary Document Report (PDSR)
- Apply the “Extend Certification” feature as appropriate
- Provide classes, individual nutrition education, nutrition assessments as usual
- Review each participant’s food prescription with the participant
  - If no changes, the CPA should document and initial the number of months to issue next to the food prescription on the PDSR.
- Use the ‘Continuity of Services Form’ to provide information to the NSB to:
  - Certify participants
  - Update the demographic or personal information of the applicant / participant
  - Prescribe or revise the WIC food prescription of the applicant / participant
  - Activate and/or replace an eWIC card to a family
  - As necessary, Exempt infant formula or WIC-Eligible Nutritionals (WEN) may be ordered from Nutrition Services Branch following the procedures in Chapter 7: Section 6.
- Fax the notated PDSR and /or the ‘Continuity of Services Form’ to the CSD
- The NSB CSD:
  - Issues participant food benefits
  - Prints Shopping List Remaining Benefits and faxes to local agency
  - Local agency gives the Shopping List and all required notifications to the participant

Crossroads NOT available, phone and fax service NOT available
- Check with local IT support to determine if the interruption is a local problem
NC WIC Program: Business Continuity Plan

- Notify the NSB Customer Service Desk (CSD)
- Provide services as able, documenting services provided using the ‘Continuity of Services Form’
- Issuance will be delayed
- If local outages extend beyond five days, local agencies follow their written disaster policy (WPM Chapter 1, Section 6) which should include alternate procedures for providing services.

When Crossroads system is available again:
- Enter data documented on the paper forms into the participant record within Crossroads
- Scan paper forms into the participant record within Crossroads
- Call participants to schedule future appointments
